

Computer Club- “Web Craft”

“A creative space for designing, developing, and experiencing the power of the web beyond traditional programming.”

Students participated in a hands-on Web Craft activity focused on designing and developing creative, responsive, and user-friendly web pages using modern web technologies such as **HTML, CSS, and JavaScript**. The activity enhanced students’ practical skills, creativity, problem-solving abilities, and understanding of web development.

Web Craft (SUG Computer Club)
